

Padlocks

Maximum Security PL350 Series

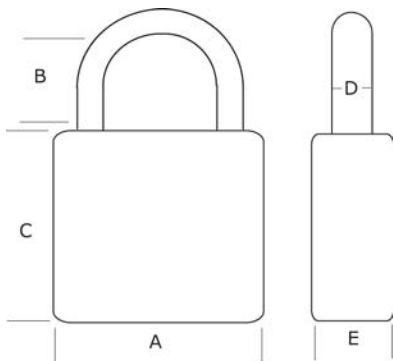

Abloy® case-hardened steel body provides protection for high security applications, such as: containers, train wagons, trucks, lorries, warehouses, etc. Equipped with case-hardened boron steel shackle at 35/64”

All Abloy® padlocks use unique rotating disc cylinders and offer maximum key control with maximum security. Abloy® padlocks can be masterkeyed with several million combinations available. Abloy® padlocks are highly resistant to wear, dirt, moisture, corrosion and freezing.

| LSI Part No. | Series | “A” | “B” | “C” | “D” | “E” | Body | Shackle |
|--------------|----------|---------------|------------------|-----------------|----------------|---------------|------|---------|
| AB8030 | PL350/25 | 72mm 2.83” | 25mm 63/64” | 57.6mm 2.27” | 14mm 35/64” | 30mm 1.18” | CHS | CHBS |
| AB8035 | PL350/50 | 72mm 2.83” | 50mm 1 31/32” | 57.6mm 2.27” | 14mm 35/64” | 30mm 1.18” | CHS | CHBS |
