

Maximum Security Vending HASP & PADLOCKS

THE ABLOY SHUT-OUT

PL299 Hasp, The ABLOY SHUT-OUT

PL340-25E ABLOY® Maximum Security Exec Padlock

Throw A High Hard One At People Who Want To Be Your "Partners"

Made of cold-rolled steel with electro-plated black finish to visually blend into the look of machines

Easily attaches to late-model cold drink machines (security plates and mounting hardware included)

Designed to use existing holes in machine door

Quick installation; will not damage the machine's insulation

Designed to restrict prying and exterior access to the bill acceptor

Built to be used with ABLOY® PL340/25 and PL341/25 Maximum Security Padlocks

The covered portion of the Hasp protects the shackle and body of the padlock; yet is easily unlocked by authorized employees

Introduced to become a part of your ABLOY® Vending Security System along with FX Keyring Padlocks, PL Series Padlocks, and T-Handle Cylinders (CL290 & CL291)

Security reinforcements plates for inside machine, and mounting hardware included
