

Cobra Universal Puck Padlock

The Cobra "Universal PUCK" Padlock was designed to accept the Cobra, Medeco and Abloy vending lock cylinders. The padlock body is constructed of solid hardened steel and has no visible shackle to cut or attack. This Cobra padlock accepts standard vending lock cylinders that can be changed by the end user. This allows the security to be changed as the lock cylinder is changed

- ✓ Hardened solid steel chrome plated lock body
- ✓ Accepts Cobra, Medeco and Abloy lock cylinders
- ✓ Patented design with universal sleeve
- ✓ Possibility of using 10 different lock cylinders
